

# Dixon Loading Arms

*Quality components, efficient design, fast delivery*

---

## **Applications:**

- used in the transfer of liquids and dry bulk in refineries, chemical plants, rail terminals, truck terminals, tote and drum filling and food industry

## **Sizes:**

- 2", 3", 4" and more upon request

## **Materials:**

- various materials available including: hardened carbon steel, 316L stainless steel and aluminum
- seals: Buna, EPDM, FKM A and B, PTFE, Baylast and more on request
- counterbalance housing: steel

## **Features:**

- three options for sealing swivels: O-ring, V-ring and Split Flange
- fast delivery for many sizes and styles
- engineered with easy service in mind
- wide variety of end configurations available
- torsion spring counterbalance:
  - ball screw adjustment mechanism for easy and safe adjustment
  - multiple spring rates available for different load requirements
  - multiple grease ports for ease of service
